DETAILED ACTION

1. Applicant's amendment and response filed July 28, 2003 is acknowledged. In view of Applicant's amendment, the following election of species is set forth.

Election of Species

2. This application contains claims directed to the following patentably distinct species of the claimed invention: The claims are drawn to an immunogenic composition and vaccine wherein the peptide is from a pilus type selected for the group consisting of F1, F1C, F8, F9, F10, F11, F12, F13, F71 and F72 serotypes. The following Table discloses the species that are encompassed by the claimed invention.

Serotypes	Corresponding Sequences	
F1	SEQ ID NO:12	
F1C	SEQ ID NO: 11	
F8	A SEQ ID NO as it corresponds to F8 is not disclosed in specification.	
F9	SEQ ID NOs: 7, 8 and 15	
F10	A SEQ ID NO as it corresponds to F10 is not disclosed in specification.	
F11	SEQ ID NO:9 and 16	
F12	SEQ ID NO:10	
F13	SEQ ID NOs:1, 2 and 17	
F71	SEQ ID NOs: 3, 4, 13 and 14	
F72	SEQ ID NOs: 5 and 6	

Application/Control Number: 09/833,079

Art Unit: 1645

Applicant is asked to elected one serotype and the corresponding SEQ ID Nos: to be examined from the above table.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 1645

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

3. Any inquiry of the general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308–0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Office Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for the Group 1600 is (703) 308-4242.

Any inquiry concerning this communication from the examiner should be directed to Vanessa L. Ford, whose telephone number is (703) 308-4735. The examiner can normally be reached on Monday – Friday from 7:30 AM to 4:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached at (703) 308-3909.
